### **New Michigan Corn Growers Association Board Members and Officers Elected**

LANSING, MICH. – Each year highly-qualified corn growers from across the state are chosen to sit on the Michigan Corn Growers Association (MCGA) board of directors. Four board members were re-elected and two board members were newly elected to the MCGA this year.

The delegates at the MCGA Annual Meeting re-elected Ed Breitmeyer of Buckley to represent District 1; Matt Cary of Alma to represent District 2; Alvin Ferguson of Allenton to represent District 5; and Scott Miller of Elsie to an at-large position. Michael Turner of Williamston and Ned Wyse of Camden were newly elected to serve on the board of directors representing Districts 4 and 7 respectively

Along with the board elections, the MCGA board of directors elected new officers. They are: Chair, Ed Breitmeyer of Buckley; President, Jeff Sandborn of Portland; Vice President, Scott Lonier of Lansing; Treasurer, Loren Koeman of Grand Rapids; and Secretary, Alvin Ferguson of Allenton.

“I’m honored to serve as the President of the Michigan Corn Growers Association,” said Sandborn. “The MCGA works on policy development, which affects corn farmers across the state. This year, we will continue our focus at both the state and national levels. We will also continue our work to increase the number of members in the association, since our strength truly comes from our members. This is an exciting time to be involved in the corn industry and I look forward to my new leadership role within the association.”

“The entire board is looking forward to directing the MCGA during the next year,” said Breitmeyer. “This year the organization will continue to work to improve opportunities for Michigan’s corn industry through policy development. We are continuing our work to educate our state’s lawmakers about the corn industry and agriculture, which has become more important as consumers get further removed from farming.”

Headquartered in Lansing, the MCGA is a grassroots-membership association that has represented the state’s corn growers’ political interests since the 1970s. The MCGA works cooperatively with the Corn Marketing Program of Michigan (CMPM) a legislatively-established program that utilizes one-cent per bushel of Michigan corn sold and invests in research, education, new uses and market development. Michigan’s corn industry adds more than one billion dollars to the state’s economy annually and in 2010, Michigan’s corn farmers harvested a record setting crop of more than 315 million bushels. For more information, visit the website of the MCGA and the CMPM at [www.micorn.org](http://www.micorn.org).
